Which airport serves Kabul?

Kabul Hamid Karzai International Airport (formerly Kabul International Airport) serves Kabul, the capital and most populous city of Afghanistan. The airport is the primary international airport serving the country.

Why is Kabul a military base?

Kabul International has been the military base for various defence forces over the past four decades as the country suffered various political and international conflicts. The airport continues to serve as a military base and is also the main hub for Ariana Afghan Airlines and Kam Air.

What is Kabul International Airport (KBL)?

Kabul International Airport (IATA Code: KBL), Afghanistan's largest and most important aviation hub, is undergoing a transformative phase, emerging as a state-of-the-art facility ready to welcome travelers from all over the world.

Why is Kabul International Airport important?

With its IATA code "KBL," Kabul International Airport remains Afghanistan's primary point of entry, making it a critical hub for diplomats, global business leaders, aid workers, and tourists. As the largest airport in the country, it plays a vital role in promoting trade, tourism, and diplomatic ties.

Kabul International Airport (IATA: KBL, ICAO: OAKB), also and formerly known as Hamid Karzai International Airport, is an international airport located in Kabul, Afghanistan.
