---

VECTRA®; A950 by Celanese is an unfilled, inherently flame retardant liquid crystal polymer (LCP) grade with high flow properties. It is suitable for processing by injection ...

Vectra resins are well known for their excellent thermal and hydrolytic stability. In order to ensure these properties are optimum, the resin should be dried correctly prior to processing. Vectra A ...

SCHOTT®; Solar Glass combines high optical performance with long-term material stability for both space and terrestrial use. It offers excellent ...

Unreinforced Vectra grade suitable for extrusion. Chemical abbreviation according to ISO 1043-1 : LCP Inherently flame retardant FDA compliant. UL-Listing V-0 in natural and black at 0.42mm ...

Let the light in with Mitrex Solar Glass -- a powerhouse in disguise, where photovoltaics meet limitless design, where color meets clarity. You're not ...

Vectra A950 is a high-performance LCP with exceptional thermal stability, strength, and flowability for demanding precision parts.

Get help choosing the right geography for your residency and compliance needs. Ensure that the Azure services you need are available in the datacenter region that you're considering.

This article looks at where Azure data center locations are, the importance of having them distributed across the globe, and how to locate the nearest one for your organization.
