Where is Andorra la Vella located?

Andorra la Vella is located in the south west of Andorra, at 42°30'N 1°30'E, at the confluence of two mountain streams, the Valira del Nord (Northern Valira) and the Valira de l'Orient (Eastern Valira), which join to form the Gran Valira. It adjoins the urban area of Escaldes-Engordany. The city is at 1,023 metres (3,356 ft) above sea level.

What is the climate like in Andorra la Vella?

Andorra la Vella has an oceanic climate (Köppen climate classification: Cfb), with warm days and cool nights in summer, and chilly to cold, snowy winters. The average annual precipitation is 812.3 mm (32 in). Temperatures in the city are lowered by the altitude (1,075 metres) compared with lowland areas.

What does Vella mean in Catalan?

Although in Catalan the word vella (like French vieille) is derived from the Latin word vetula which means "old", the Vella here (like French ville and Catalan vila) is derived from the Latin word villa, meaning "city".

The substation will also absorb all new electricity generation from renewable sources. Hitachi Energy worked closely with the experts from FEDA to design and install this technologically ...
