What type of battery should I use for my inverter?

We recommend using a deep cycle battery, such as an RV battery or Marine battery, for your inverter. If you are using a 600 watt inverter or larger, Marine batteries are preferable because they can withstand being deeply drained and recharged many times.

What kind of batteries do I need for a genus inverter?

Genus supplies high performance, low maintenance tubular batteries ideal for use with UPS and Inverters. These batteries are a reliable and economical option for all types of inverters that are used for a variety of domestic and office applications. They are specially designed to support long and frequent power cuts.

What is a gel & AGM battery?

Read more about our industry-leading 5-year standard warranty and global repair service. The Gel and AGM Batteries are particularly suitable for high current discharge applications such as for inverters, thrusters and winches. Find a dealer near you.

What is the difference between gel & AGM?

The AGM range has very low internal resistance making them particularly suitable for high current discharge applications such as for inverters, thrusters and winches. The GEL model range offers best deep cycle durability and overall longer life.

For inverters powering loads over extended periods, deep cycle gel batteries are preferable. They handle repeated discharge/recharge cycles better than standard batteries, ...

Use a Suitable Inverter: Ensure your inverter matches the battery's specifications for optimal performance. Understanding the benefits and limitations of gel batteries helps you ...

The Gel and AGM Batteries are particularly suitable for high current discharge applications such as for inverters, thrusters and winches. Find a dealer near you.

The right gel battery can improve inverter performance, especially in off-grid or backup power setups. Gel batteries offer low maintenance, deep-cycle capability, and solid ...

High Discharge Rate: Inverter gel batteries provide high discharge rates, making them suitable for applications
