Why should I get a custom solar panel design?

Receive a custom prepared design for a solar panel system prepared by an experienced technician. This personalized solar design helps you to make an informed, unbiased decision to find the best solar power system at the lowest cost.

How much does it cost to design a custom solar panel?

There are no design feesto create a prototype of your custom solar panel. Some, but not most, designs may require a fee to prepare the machinery to create your specific panel at volume. Our MOQ is 500 - 2,000 units depending on the size of the panel.

What is a personalized solar design?

This personalized solar design helps you to make an informed, unbiased decision to find the best solar power system at the lowest cost. Understand your options for residential or commercial modules, on-grid or off-grid, backup systems, rooftop or ground mounting.

Should I start a solar project with small Solar panels?

Prototype your project with small solar panels before moving forward with custom designs. This allows you to confirm the efficiency of the circuit and power production estimates before investing in a custom design.

Voltaic designs and manufactures custom, high-quality solar power panels and mounting solutions for a wide range of industrial applications including asset tracking, livestock tracking, ...

Custom solar panels built to your exact size, voltage and connector needs. Flexible, mini and foldable options for RV, IoT and outdoor applications with fast OEM delivery worldwide.

Voltaic designs and manufactures custom, high-quality solar power panels and mounting solutions for a wide range of industrial applications ...

We, at GermanSolar, engineer, design and manufacture high performing PV On-Grid and Off-Grid panels for your OEM needs based on your PV solar panel-requirements and specifications.

Solar panels are customized in response to specific needs. Hence, in turn, the needs determine the available customization options. The size and shape are the primary ...
