What are containerized generator / packaged container and enclosure options?

Containerized generator /Packaged container and enclosure options provide alternatives to installations in existing or new buildings. We have significant experience with pre-packaged container and enclosure solutions for engine-generator sets,balance of plant equipment,and switchgear.

Why should you choose Jenbacher containerized gas power generation solutions?

Jenbacher containerized gas power generation solutions offer a variety of benefits to our customers, thanks to distinctive product features: See for yourself.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options,both mechanical and electrical,are available to ensure that our containers meet the project requirements. For example,we offer several heat recovery configurations and exhaust after treatment systems.

A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, ...

We offers containerized generator sets with CHP and Emission control system. With our genset containers offer optimal performance in various ...

Our generator set, powered by locally sourced natural gas, not only provided a reliable power source but also reduced operational costs by 30% compared to diesel alternatives.

Containerized Design: The unit is enclosed in a robust, weatherproof container, ensuring protection against harsh outdoor conditions. Low Emission Technology: Compliant with ...

The container generators are fully operational supplied, including air-intake, exhaust system and silenced muffler, tank, control panel and accessories such as lighting and fire extinguishers.

We offers containerized generator sets with CHP and Emission control system. With our genset containers offer optimal performance in various site conditions.

A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery ...

Green Power Systems offers the possibility of installing generators inside CONTAINERS of 10" / 20" (BOX and HC) / 30" / 40" (BOX and HC) or SHELTERS according to the customer's ...
