Are Li-ion batteries a good investment in Uzbekistan?

Li-Ion batteries have seen in the last years a reduction in cost in the order of 25-30 %/year. Northwest part of Uzbekistan has high wind potential, whereas main load centres are in the South East. This requires HV or EHV OHTL to connect key wind centres with load centres

What is ACWA Power doing in Uzbekistan?

ACWA Power's efforts in Uzbekistan pave the way for further renewable energy initiatives, reinforcing the country's commitment to a low-carbon economy and sustainable growth. ACWA Power, a leading energy company, has launched full commercial operations for its 1-gigawatt wind power portfolio in Uzbekistan.

Where is PPPA project located in Uzbekistan?

The proposed project site is in the Karatau mountain region in Beruniy and Qorao'zak Districts in Karakalpakstan, Northwestern Uzbekistan. A 25-year PPPA has been awarded to ACWA through a competitive tender and signed on March 28, 2024, with the National Electric Grid of Uzbekistan (NEGU) as the Public Partner (off taker).

How to implement utility scale wind plant on PPP base?

Implementation of utility scale Wind Plant on PPP base require Presidential Decree (PD) to be issued. PD serves as a base for land allocation by Khokimiyats (municipalities). Land lease agreements are concluded between project developer and local municipalities.
