Corvus Energy Norway is a subsidiary based in Bergen, Norway, and part of the Canadian Corvus Energy Group. The company specializes in efficient and reliable lithium-ion ...

While not as dominant as hydroelectric storage, battery energy storage systems (BESS) are gaining traction in Norway for shorter-term storage and grid services.

Elinor Batteries has signed an MoU with SINTEF Research Group to open a sustainable, giga-scale factory in mid-Norway, and HREINN will manufacture 2.5 to 5 million ...

Summary: Bergen, Norway's renewable energy hub, is pioneering energy storage solutions to stabilize its grid. This article explores the latest trends in Bergen's energy storage rankings, ...

Installed off Bergen, the system consists of vast hollow spheres anchored 400 metres below the surface. When surplus wind power is available, electricity pumps water out ...

Installed off Bergen, the system consists of vast hollow spheres anchored 400 metres below the surface. When surplus wind power is ...

While not as dominant as hydroelectric storage, battery energy storage systems (BESS) are gaining traction in Norway for shorter-term ...

It is crucial that alternative types of energy storage systems are developed based on alternative materials, which is why Bergen Carbon Solutions has looked into this research project.
