What is the 5.5kW Hybrid Inverter?

The 5.5kW Hybrid Inverter is a mid-range on-grid parity inverter that is our best-selling model with 2 MPPT ports. It is perfect for most applications, especially for domestic premises with sufficient roof space for solar or wind power.

Is a 5 kW inverter worth it?

It could be that the system will spend such little time providing above 5 kW, once shading and losses are taken into account, that it's not worth the cost of getting the next-largest inverter.

How much does a 500KW inverter cost?

The cost of a 500kw inverter ranges from 10 to 99999. The price of a 500kw inverter varies by different parameters. Haven't found what you want? Post sourcing requests and get quotations quickly. Stay updated to what's new and popular on the market.
