In this report, we model a long-term outlook for the energy system, as well as an accelerated de-carbonization scenario, to explore how Chile's power system may adapt to increasing volumes ...

One aspect of the development of Chile's BESS market this year that seems to have taken Silva by surprise is that he expected the market to come in different waves, ...

The first two phases of Oasis de Atacama, the largest solar power and energy storage project in Latin America, have come on stream ...

Discover how solar and storage projects by Zelestra are shaping Chile's grid, enhancing reliability, and driving Chile's energy transition.

Solar and energy storage deployment is booming in Chile, spurred on by supportive government policy that has been markedly stable for 15 years. Indeed, the nation leads Latin ...

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Technological advancements are dramatically improving ...

The first two phases of Oasis de Atacama, the largest solar power and energy storage project in Latin America, have come on stream in Chile's Antofagasta Region.

With transmission lines at overcapacity and permitting delays slowing the development of new grid infrastructure, battery energy storage systems (BESS) have surged ...
