What are the best solar inverter brands in Melbourne?

Top Solar Inverter Brands in Melbourne: Growatt Inverters: Founded in 2010, Growatt, a Chinese manufacturer, stands out for its high efficiency and reliability. Their inverters come equipped with features like Maximum Power Point Tracking (MPPT), grid-tie compatibility, and backup power solutions.

Do you need a solar inverter in Melbourne?

Inverter installation Available in Melbourne and Victoria Inverters are an essential part of any solar power system. Without an inverter installation, solar panels would be unable to generate usable electricity. Inverters take the energy captured by solar panels and convert it into clean, usable electricity.

Who makes the best string inverter?

SMA Sunny Boy German manufacturer SMA Solar Technologies was widely regarded as the best string inverter manufacturer before the Fronius snap-in series took the top spot in 2016. However, the new Sunny Boy AV series regained some market share after SMA relocated all manufacturing back to Germany in 2019.

What is a microinverter solar panel?

Microinverters, or micros, are very small solar inverters attached directly to individual solar panels. Since each microinverter and panel operate independently, they are an excellent option for complex roof layouts and locations with shading.
