The Solar-Battery Mismatch Cuba currently operates 186 renewable parks generating 25% of its electricity. But here's the kicker - less than 15% have proper energy storage systems. "We're ...

Cuba, country of the West Indies, the largest island of the archipelago, and one of the more-influential states of the Caribbean region. A multicultural, largely urban nation, it has ...

For months as the US military prepared to strike Venezuela, many Cubans have asked a simple, if disconcerting, question: "Are we next?"

The inauguration of this first solar park marks a significant milestone in Cuba's efforts to diversify its energy sources and reduce its reliance on imported fossil fuels.

The secretary of state's latest remarks came after he told reporters that he'd be "concerned" if he were a government official in Havana.

In 2015, out of Cuba's total 566 MW of renewable energy capacity installed, 83% of the total was in the bioenergy sector. In 2016, the renewable ...
