What is a drone delivery box?

Hinco's drone delivery box is one of the types of drone package container, which is developed for the standardization of Hinco drone delivery process. The box is characterized by a foldable high-strength metal clip. The drone delivery box has various sizes and is very suitable for transportation & storage, and it can be used repeatedly.

What is a box for a drone?

The box is made of cardboard and can be reused. The box is covered with a layer of thin film, and can sustain for a period of time in the air when it rains. Ideal for mechanical loading to the drone. Support parachute module.

What is a drone docking station?

Drone docking stations, also known as drone ports, enable Unmanned Aerial Vehicles (UAVs) to take off and land while also enabling the drone to be recharged. The core components of a docking station include a control panel to push flight routes and monitor flight progress.

What are drone enclosures used for?

These enclosures may also be used to store packages for delivery drone services. Drone stations help mitigate the low flight endurance and long recharge times of battery-powered UAVs by automating the recharge process, which means that a human pilot is not required.
