Dominica Electricity Services Ltd. (DOMLEC) is set to perform essential assessments on a newly deployed Battery Energy Storage System (BESS) at the Fond Col^{#233}; ...

The Dominica Schools Microgrid Project serves as a proof point for how solar and storage systems can preserve community vibrancy through bolstering energy resilience amid ...

The commissioning of a 6 MW / 6 MWh Battery Energy Storage System (BESS), installed at the DOMLEC facility in the Fond ...

Central to these efforts are developments in hydroelectric power operated by DOMLEC, geothermal energy exploration, and the adoption of solar and wind technologies, all of which ...

Construction starts on the first major solar-plus-storage project in Dominica is progressing with its first geothermal power project, with site preparation for the 10 MW plant underway. ...

The BESS, with a combined capacity of 6MW/6MWh, will greatly enhance DOMLEC's ability to manage the electricity grid more efficiently, provide spinning reserve, and ...

The global industrial and commercial energy storage market is experiencing explosive growth, with demand increasing by over 250% in the past two years. Containerized energy storage ...

The commissioning of a 6 MW / 6 MWh Battery Energy Storage System (BESS), installed at the DOMLEC facility in the Fond Col^{#233}; area, is nearing completion. Installation is ...
