Sunly, in collaboration with Metsagrupp, is developing a 16 MW / 32 MWh battery energy storage system (BESS) next to the 45 MW Raba Solar Park in Pärnu County, Estonia.

It could help stabilise Estonia's electricity supply during peak demand periods. The 144-megawatt battery system, designed to store energy from the in-development Risti solar park, received its ...

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in ...

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia.

Located in Kiisa, just outside Tallinn, the project is spearheaded by the Baltic Storage Platform - a joint venture between Estonian energy company Evecon, French solar ...

Estonia is launching a major 300 MW solar-plus-storage project in Ida-Viru County, transforming a former quarry to boost renewable energy and energy independence.

Recently, Estonia welcomed its largest solar park, capable of powering 35,000 households, now another such step is the development of two battery energy storage systems in Harju County, ...

Construction has begun in Estonia on two energy storage facilities with a total capacity of 200 MW and 400 MWh. On Thursday, a symbolic groundbreaking ceremony took ...
