How much does Bess cost in Europe?

In early 2024, the price of residential BESS offered to end consumers in Europe ranged widely, from EUR400 to more than EUR1,200 per kilowatt-hour (kWh) (Exhibit 2). Historically, European OEMs built trust-based brands by highlighting their "made in Europe" status and rode the first-mover wave over the past ten years.

How are European Bess OEMs putting cost pressure on Europe?

These international players are placing cost pressure on European BESS OEMs by driving down prices. In early 2024, the price of residential BESS offered to end consumers in Europe ranged widely, from EUR400 to more than EUR1,200 per kilowatt-hour (kWh) (Exhibit 2).

What services does a Bess OEM offer?

Residential BESS OEMs can also offer value-added services such as energy trading, analytics on battery energy usage and charging, and energy optimization. These services can offer homeowners increased freedom of PV and BESS utilization as well as energy tariff avoidance during peak demand periods.

Is Bess growing in Europe?

After years of exponential growth, demand for BESS in Europe has temporarily flattened, with McKinsey research showing approximately 150 percent growth in the first half of 2023, which slowed to 10 percent in the second half of 2023 for Germany.
