How do Afghan banks get funding?

Currently, most projects in this domain get supported by concessional donor funds and government contributions. Currently Afghan banks are more focused on retail operations, however donor or government guaranteed debt instruments can leverage additional capital.

What can Afghan banks do?

Currently Afghan banks are more focused on retail operations, however donor or government guaranteed debt instruments can leverage additional capital. These can be utilized to expedite implementation of renewable energy projects, especially for solar power parks, larger RE technology projects and setting up of power distribution franchisees.

Are mini-grids a viable alternative to grid extension?

Mini-grids have emerged as viable alternative to grid extension for rural/semi-urban communities' world over. Diesel based mini-grids are commonly used in Afghanistan, which need to be either replaced or hybridized with solar, wind and MHP technologies. In addition, new mini-grids need to be installed in load centers and provincial towns.

How do feed-in tariffs work in Afghanistan?

Like grid-tied systems, feed-in tariffs play an important role. At the same time, the model is based on a single consumer, similar to standalone systems. Afghanistan is currently establishing its net metering policy, which will catalyse the roof-top market.

The International Finance Corporation (IFC), part of the World Bank, hopes the initiative will help bring electricity to the nearly 20 million Afghans - 60 percent of the country's population - who ...

1.3.2 Establish coordination mechanism among responsible institutions to coordinate on-grid and off-grid planning and national, regional and village level interaction and to allow for continuous ...

This project outlines the development of solar energy projects, including utility-scale solar farms, rooftop solar systems, and solar mini-grids for rural areas.

The IFC-led programme will start with solar systems, manufactured by California-based off-grid home solar specialist d.Light, being provided to homeowners in the Eastern and ...
