We specialize in the sales, installation, and servicing of a wide range of power equipment, including generators, power plants, compressors, rigs, and electromechanical machines.

We offer a design and build service for quality yet competitively-priced homes, offices and other facilities using shipping containers.

While the potential of shipping container homes is promising, some urban planning experts caution against viewing them as a panacea for Ghana's housing issues.

The house is now ready to be transported to your designated site. Even though this is your responsibility, we can help you decide on a suitable company, and we will arrange all the pick ...

The global solar storage container market is experiencing explosive growth, with demand increasing by over 200% in the past two years. Pre-fabricated containerized solutions now ...

Ghana Power Generation Company (GPGC) aims to improve the security of power supply in Ghana with solutions that complement the Government of Ghana's efforts to increase ...

Our prefabricated container homes cater to diverse preferences--whether you desire minimalist charm or a bold architectural statement. Our shipping container homes are ...

Nestled in the vibrant landscape of Ghana, this project, completed in 2016, redefines modern living by ingeniously repurposing shipping containers into functional and stylish homes.
