---

On February 5th, UtmoLight successfully launched the world's first GW-scale perovskite photovoltaic (PV) module production line, marking a new era for large-scale ...

On June 24, GCL Optoelectronic Materials officially launched its gigawatt-scale perovskite industrial base in Kunshan, marking the start of operations at the world's first GW ...

Perovskite photovoltaics just crossed the line from pilot to production. On 24 June, GCL Optoelectronic Materials switched on what it bills as the world's first gigawatt-scale ...

On February 5th, UtmoLight successfully launched the world's first GW-scale perovskite photovoltaic (PV) module production line, ...

China has become home to what's being termed the world's 1st GW-scale perovskite solar module production line, according to local ...

UtmoLight has announced that its gigawatt-scale perovskite solar module facility in Wuxi is now online and has started production.

In April this year, on the eve of perovskite mass production, the Group of 7 (G7) Ministers' Meeting on Climate, Energy and ...

(Yicai) Dec. 28 -- GCL Group Holdings, a major Chinese solar materials maker, has begun building the world's biggest perovskite solar cell factory in the city of Suzhou, marking a ...
