As a key component of Guyana's landmark Gas-to-Energy (GtE) initiative, the BESS will enhance the project's efficiency and ...

After a period of dedicated efforts, on January 27, 2025, the Wakenaam Diesel and BESS Storage Project was officially completed.

The project is a central component of Guyana's push to lower energy costs and emissions by replacing heavy fuel oil (HFO) with natural gas for electricity generation.

The Guyana Solar Power and Energy Storage Project, jointly constructed by China Railway International Group under China Railway Group Limited, is the largest solar ...

As a key component of Guyana's landmark Gas-to-Energy (GtE) initiative, the BESS will enhance the project's efficiency and reliability; helping to stabilize the national grid, ...

Guyana's landmark Gas-to-Energy project reached a critical milestone with the arrival of a 30-MW backup battery energy storage system (BESS) at Georgetown's John ...

Guyana has unveiled a new 0.65 MW grid-forming solar project, paired with a 1,500 kWh battery energy storage system (BESS) and a 13.8 kV transmission line.

Guyana has unveiled a new 0.65 MW grid-forming solar project, paired with a 1,500 kWh battery energy storage system (BESS) ...
