What is the current state of solar energy in North Macedonia?

This article explores the current state of solar energy in North Macedonia, the opportunities for growth, and the challenges that must be addressed to maximize its potential. By the end of 2022, the country had reached a photovoltaic capacity of approximately 144 MW, with projections indicating rapid growth in the coming years.

Is North Macedonia a burgeoning market for solar energy production?

This shift underscores North Macedonia's potential as a burgeoning market for solar energy production, particularly as the country aims to meet its ambitious renewable energy targets. The regulatory landscape for renewable energy in North Macedonia has been markedly transformed with recent changes adopted in April 2023.

Does Macedonia have a solar energy plan?

Historically, the country's journey toward solar energy began with the National Energy and Climate Plan (NECP) established in 2022, which set clear targets for renewable energy consumption. Macedonia - new player in solar industry.

How much solar power does Macedonia have in 2022?

By the end of 2022, the country had reached a photovoltaic capacity of approximately 144 MW, with projections indicating rapid growth in the coming years. In 2023 alone, North Macedonia saw an impressive increase in solar capacity, with new installations contributing to a total increase of 251% compared to the previous year.

The national average cost of solar panels is \$2.66 per watt, but in Macedonia it's 3 per watt. In this figure, a typical 7.8-kW system would cost about \$18,650 before the 0 federal solar tax ...

With 900 MW of installed capacity, North Macedonia's solar sector is scaling rapidly, while battery storage is gaining momentum. Find out more in our daily focus, 15-18 ...

North Macedonia's transition to renewable energy, particularly solar power, is poised for significant growth in the coming years. The government has set ambitious targets to ...

This report, "North Macedonia Renewable Energy Market - 2025 Update", has been produced by Invest In Network as part of the Energy Week Western Balkans 2025 framework.
