Minimizing energy costs is essential to operating a profitable drilling operation. mtu EnergyPacks offer a scalable hybrid E-drilling solution that allows you to optimize load profiles and add ...

Siemens Energy signed an agreement with Maersk Drilling to upgrade two ultra-harsh environment CJ70 jack-up drilling rigs in the North Sea with hybrid power plants using ...

This project, the first of its kind for the two companies, reflects their shared desire to accelerate the development of energy storage solutions. It also marks a strong commitment ...

THE SOLUTION nted a hybrid solution that integrates generator power with an advanced Battery Energy Storage System (BESS). This innovative omatically starting and stopping them as ...

The system provides storage of electrical energy using state of the art Lithium Ion LTO Batteries to load balance the engine operation on drilling rigs (drawworks peak shaving) and to optimize ...

Engineered with a heavy-duty battery structure that provides vibration isolation, the Hybrid Energy Storage Solution is designed to ...

BlueVault(TM) energy storage solutions are an advanced lithium-ion battery-based solution, suited for both all-electric and hybrid energy-storage applications. BlueVault(TM) is ...

By harnessing the capabilities of the Battery Energy Storage System, drilling rigs gain the flexibility to run with fewer engines or at lower engine loads. This adaptability optimizes energy ...
