When will battery energy storage systems be installed in Latvia?

The most recent update regarding BESS installations is that in Tume and Rezekne, Latvia's transmission system operator "Augstsprieguma tikli" (AST) in June 2025 installed battery energy storage systems with a combined capacity of 80 MW and 160 MWh, which will undergo testing until October 2025.

What is Latvia's first storage battery system?

In November 2024, Utilitas Wind Ltd inaugurated Latvia's first storage battery system with a capacity of 10 MW and 20 MWh in Targale, next to the existing wind park.

What is the main source of renewable electricity in Latvia?

Hydroelectric power is the main source of renewable electricity in Latvia, followed by solar, wind and biomass cogeneration plants. In 2024, solar power in Latvia grew over 3.1 times to 6.7% of total electricity, becoming the third-largest source, while wind reached a record 38 GWh and hydropower, despite a 16% drop, still provided 54%.

Our analysts track relevant industries related to the Latvia Energy Storage Solutions Market, allowing our clients with actionable intelligence and reliable forecasts tailored to emerging ...

The Latvia energy market report provides expert analysis of the energy market situation in Latvia. The report includes energy updated data and graphs around all the energy sectors in Latvia.

The average energy storage battery cost in Latvia ranges from EUR400 to EUR1,200 per kWh, depending on technology, capacity, and application. Let's explore the factors influencing these ...

Clean Horizon has published its latest price forecasts for Estonia, Latvia, and Lithuania, reflecting the significant shifts following the Baltic states' accession to the Central ...

Energy storage systems are an essential element of Latvia's path towards a sustainable and energy-independent future. The ...

Latvian engineers have sort of cracked the code on rapid deployment. Their containerized systems can be operational within 48 hours of delivery, compared to the European average of ...

The Latvia energy market report provides expert analysis of the energy market situation in Latvia. The report includes energy updated data and ...

Latvia's energy storage sector is rapidly evolving to meet EU sustainability goals. This article explores companies developing energy storage power stations in Latvia, market trends, and ...
