How many circuit breakers do you supply to Russia?

Over the years we supplied about 1.500 circuit breakers for voltage 110,220 and 500 kV to the Russian market.

What is a circuit breaker?

A circuit breaker is a critical safety device in electrical systems, designed to protect circuits from damage caused by overloads, short circuits, or ground faults. In Russia and across the CIS region, various types of circuit breakers are used in residential, commercial, and industrial applications.

What are miniature circuit breakers (MCBs)?

Miniature Circuit Breakers (MCBs) are the most common type used in low-voltage applications across Russia. These compact, fixed-trip devices are widely installed in residential and commercial distribution boards to protect individual circuits.

How do I choose the best outdoor Breakers?

**Weatherproof Enclosures:** Outdoor breakers must be installed in NEMA 3R, 4, or 4X-rated enclosures that protect against rain, snow, ice, and dust. **IP Ratings:** Look for an Ingress Protection (IP) rating of at least IP55 (dust protected and water jet resistant) for reliable outdoor performance.
