Will the Middle East become the third largest storage market?

This landmark event will explore the Middle East's trajectory to become the third largest storage market globally by 2026, with a special focus on the region's ambitious renewable energy targets and BESS integration strategies.

When is the energy storage Middle East Summit 2026?

Co-located with the extremely well renowned Middle East Energy Show, join us for the inaugural Energy Storage Middle East Summit in Dubai, April 2026, as we bring our world leading energy storage series to one of the world's fastest-growing BESS markets.

What is Middle East energy 2025?

Middle East Energy 2025 is set to redefine the narrative surrounding energy storage as a fundamental enabler of sustainability, energy access, and regional decarbonization. Over the next three days, Dubai will serve as a global hub for rethinking how energy is stored, delivered, and optimized for a net-zero future.

What is the Middle East Energy Conference?

Complementing The Battery Show Conference, the broader Middle East Energy program unites over 150 thought leaders across five additional conferences: the Middle East Energy Leadership Summit, Technical Seminar powered by IEEE, Intersolar & ees Middle East Conference, Global Innovation Forum, and the Africa Business Leaders Forum.

Explore 10 renewable energy projects in the Middle East, showcasing solar, wind, and battery storage advancements set for 2025. [Read more here.](#)

"At Middle East Energy this year, Enercap will be showcasing our next-generation supercapacitor-based energy storage solutions designed for high-power applications, grid ...

This month's news, spanning Saudi Arabia, UAE, Oman, and beyond, reveals a surge in utility-scale BESS deployments, hybrid solar ...

The exhibition features industry leaders presenting the latest lithium-ion technologies, flow batteries, and hybrid systems that are transforming how energy is stored, managed, and ...
