## What is PLD Pad-Mounted Switchgear?

Federal Pacific offers PLD Pad-Mounted Switchgear to provide an additional switchgear equipment choice for implementing underground distribution systems. The PLD units offer the application flexibility and operating convenience of both live-front and dead- front pad-mounted switchgear.

### Do you need a pad-mounted switchgear solution?

Whatever your specific challenges are, you need a pad-mounted switchgear solution to address them. You've come to the right place: S&C's PME Pad-Mounted Gear is dead-front, air-insulated underground distribution switchgear that provides safety and reliability upgrades at a reasonable price.

### What is a Pad-Mounted Switchgear?

Pad-mounted switchgear designed for underground switching and fusing protection for the distribution grid. With a low-profile lockable tamper proof design, these units are perfect for outdoor public installations.

### What is PSI/II Pad Mounted Switchgear?

PSI/II Pad-Mounted Switchgear is designed to meet the switching and isolating requirements of electrical distribution systems with 15 pre-engineered switching configurations. There are UL-listed standard units available to cover almost every situation - radial feed, loop feed and manual primary-selector switching.

Our distribution switchgear is engineered to industry standards, meeting the needs of your application while ensuring operator safety. With our ...

Elliott manufactures made-to-order, high-quality pad-mount electrical equipment for electrical utilities, industrial customers, and commercial customers.
