We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ...

We deliver fully integrated energy storage units housed in durable containers, simplifying logistics and deployment. These solutions are ideal for mining sites, temporary industrial operations, or ...

The battery energy storage industry is shifting from traditional 20-foot containers to modular systems due to limitations in energy density, design flexibility, and transport.

This ambitious endeavor transforms a standard 20-foot shipping container into a high-capacity, modular, and off-grid power system capable of supporting diverse energy needs.

The Bluesun 20-foot BESS Container is a powerful energy storage solution featuring battery status monitoring, event logging, dynamic balancing, and advanced protection systems. It also ...

Built for rapid deployment and operational reliability, our foldable containerized solutions offer energy independence without compromising efficiency or sustainability. SOLAR ...

We deliver fully integrated energy storage units housed in durable containers, simplifying logistics and deployment. These solutions are ideal for mining ...

Solar support structure for adding solar panels to top of 20ft shipping container. Includes support legs, rails and Pro Solar module clamps.
