With an experienced R& D team, we are able to design and manufacture solar power pods with superior performance and cost-effectiveness according to the specific needs of our customers.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

Learn about the benefits of solar container homes and how they provide reliable off-grid energy through modular energy storage, hybrid energy compatibility and rapid deployment.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini power station using solar panels.

Our off-grid solar container, built with PV panels, batteries, inverters, and monitoring, provides fast clean energy with storage, smart control, and backup options. This ...

Discover how Higher Wire shipping container solar systems provide reliable, off-grid power for remote worksites and projects.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini ...
