Solar panels can be used for powering irrigation systems, livestock operations, and farm buildings. High initial investment and land use conflicts can deter farmers from adopting solar ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Power remote farm areas with portable solar panels! Run electric fences, irrigation pumps & tools anywhere. Weatherproof, mobile ...

Power remote farm areas with portable solar panels! Run electric fences, irrigation pumps & tools anywhere. Weatherproof, mobile energy for smart farming.

Whether for agricultural produce, fisheries, or pharmaceuticals, our solutions offer a dependable alternative to traditional refrigeration, even in the most remote locations.

An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

With realistic planning and simple maintenance, the off-grid solar container becomes a mobile power hub that keeps agricultural processing running where crops are grown.

Solar shipping container powers irrigation and tools in off-grid farms. Ideal for remote agriculture needing clean, mobile energy.
