Our solar-powered ice maker, available in flake or block ice configurations, provides continuous ice production and storage 24/7. It is a versatile ...

Energy-efficient solar-powered refrigeration solutions designed for modular, off-grid walk-ins and remote cold storage operations.

Our Solar Container Cold Storage -- A shipping container turned into a big solar-powered fridge. Keeps food, medicine, and other goods cold without needing electricity.

Our solar-powered ice maker, available in flake or block ice configurations, provides continuous ice production and storage 24/7. It is a versatile solution for businesses in the agriculture, ...

Explore the innovative world of solar-powered refrigeration, a sustainable solution for off-grid areas, ensuring food preservation and effective vaccine storage.

Peering into the world of solar reefer containers, we'll find a fascinating fusion of renewable energy and refrigeration technology. These innovative units use solar panels installed on their ...

Our off-grid refrigerated containers use solar energy to maintain ideal cooling conditions, ensuring freshness and reducing waste. Equipped with high-performance compressors and ...

Discover how solar-powered cold rooms deliver sustainable, off-grid refrigeration, cutting energy costs while reducing carbon emissions--ideal for agriculture, food storage, and remote areas.
