---

Discover the top 5 causes of glass breakage in solar modules and how to prevent them for improved durability and efficiency in your solar panel system.

Yes, the sixth annual PV Module Index Report from RETC had some troubling findings, headlined by reports that spontaneous module glass breakage in fielded projects is ...

Several interrelated factors increase the risk of glass failure in modern solar panels. These range from technological advancements to designing issues which become ...

Scientists and researchers at NREL, including Timothy Silverman and Elizabeth Palmiotti, are investigating early failure in dual-glass PV modules. Dual-glass PV modules are ...

For the 2024 PV Module Index Report, RETC sought to better understand the unique field failure modes associated with ultra-large ...

Dual-glass PV modules are experiencing low-energy glass fracture under expected conditions of use at an alarming rate. David Devir ...

Yes, the sixth annual PV Module Index Report from RETC had some troubling findings, headlined by reports that spontaneous ...

Solar modules are getting bigger, thinner, and more powerful. But from Texas to Thailand, the same problem is appearing: broken glass. These breakages are not caused by ...
