We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Modular, solar-powered shipping-container systems for remote living and businesses. Complete off-grid power solutions built by licensed electricians at Danger Electric.

The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

Off-grid inverters operate independently from the utility grid. They rely on solar panels and batteries to generate and store electricity, providing energy autonomy even in ...

Traditional off-grid setups often required a patchwork of devices: inverters, charge controllers, generator switches, monitoring tools, and more. Today, integrated hybrid inverters ...

In this blog, we'll break down what a hybrid inverter is, how it works, and why it's a game-changer for both off-grid living and grid-connected homes looking to add energy backup.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini ...

Delivering 10,000W of rated power output, this rugged pure sine wave hybrid inverter is capable of pairing with either GEL or LI batteries. Dual MPPTs provide 99% efficiency. Provides 120V and ...
