Common Core State Standard: Recognize the major components and patterns observed in the Earth, moon and sun system.

Standard:5. The solar system consists of planets and other bodies that orbit the Sun in predictable paths.

When requesting an ephemeris for a specific object, you should ensure the requested time (s) are within the available time-span for that object. The Horizons system can be accessed through a ...

While you can take as many Sophia courses as you'd like each month with your membership, you are only allowed to be active in two courses at a time. Taking a lecture course along with a lab ...

Give your solar system a formation year (in earth years). Define a method that returns the local year of the planet based on it's rotation since the beginning of the solar system

Try any Sophia course for free (through the first challenge of a unit). These courses are designed to transfer to 100+ partner colleges and have been reviewed for credit at 1,000+ other colleges ...

This Sophia: Solar System Formation Unit Plan is suitable for 6th - 8th Grade. An illustrated slide show highlighting the origin and make-up of our solar system.

Formation of the Solar System Lab Report Instructions: In this virtual lab, you will investigate the law of universal gravitation by manipulating the size of the star and the positions of planets ...
