The country is pursuing the goal of transitioning its energy supply entirely to renewable sources by 2050. "Large-scale battery storage systems will play an increasingly important role in ...

Flexbase Group has begun building what could become one of Europe's largest flow battery storage installations, breaking ground on ...

We research electricity storage solutions for mobility and the supply of power. Our goal is the integration of renewable energies and the replacement of fossil fuels.

Switzerland's new EUR2 billion energy storage initiative isn't just another infrastructure project - it's a moonshot combining hydropower tradition with cutting-edge tech. Let's unpack ...

This is not only a record-breaking flow battery (redox) energy storage system in terms of scale but also a symbol of the upcoming transformation of Europe's energy landscape.

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it ...

Flexbase Group has begun building what could become one of Europe's largest flow battery storage installations, breaking ground on an 800 MW/1.6 GWh redox flow system ...

The world's largest flow battery energy storage system is under construction in Switzerland. In the Swiss town of Laufenburg, located at the intersection of the borders of ...
