OIREP's focus was installation of solar energy capabilities to nine outer islands of Tonga, with the aim of increasing the reliability, efficiency and affordability of power on these islands.

The Sunergise 6 MW IPP Solar Generation Systems is a photovoltaic power plant in Kolovai, Tongatapu, Tonga. It is the largest photovoltaic power plant in South Pacific.

Our transition from diesel generation to renewable energy is our progress towards achieving a sustainable power source for the Kingdom for generations to come. Our current electricity ...

Tonga is making tangible progress toward its renewable energy targets with the rollout of solar-powered mini-grid systems across its outer islands, in a bold move to reduce its ...

This is achieved by: Feeding solar electricity into the grid reducing the cost of electricity to consumers, and Reducing consumption of 180,000 L/year of diesel. The Plant fullfills 13 % of...

Tonga is making tangible progress toward its renewable energy targets with the rollout of solar-powered mini-grid systems across ...

Our main source of renewable energy is currently from solar generation and wind generation, but we are also looking into other renewable energy sources that are reliable and sustainable here ...

King Tupou VI commissioned Tonga's new 6.9MW solar power plant at Fualu, Tongatapu, on 7 December, which will assist Government's plans to reduce the country's reliance on imported ...
