Will CentrePort install a 1000kwhr / 500KW Bess facility?

CentrePort will be installing a pilot scale 1000kWhr /500kW BESS facility to address current operational challenges and meet the near-term needs of electrification initiatives.

What is the Wellington Bess project?

"The Wellington BESS will contribute towards supporting Australia's journey towards a more sustainable and reliable energy future," said RJE Global in a statement. The project sits within the Dubbo Regional Council LGA and is part of broader efforts to boost storage infrastructure as renewable penetration increases across the NEM.

What is the Wellington Bess & why is it important?

It is also designed to support the integration of variable renewable energy and help reduce wholesale electricity volatility. "The Wellington BESS will contribute towards supporting Australia's journey towards a more sustainable and reliable energy future," said RJE Global in a statement.

Who are Centreport Wellington communications & Engagement Managers?
