What is Asia-Pacific wind power market?

Wind power is usually generated using a wind turbine. Wind turbines are mechanical systems that convert kinetic energy into electrical energy. Asia-Pacific Wind Power Market is segmented by onshore and offshore. The report also covers the market size and forecasts for the Asia-Pacific Wind Power Market across the major countries.

What are the opportunities for offshore wind turbines in Asia-Pacific?

The technological advancements in efficiency and decrease in the production cost of offshore wind turbines are expected to create ample opportunity for the market players in Asia-Pacific. China dominates the wind power market and remains the largest onshore market with 21.2 GW of new capacity additions.

Who is the best wind turbine supplier outside China?

Vestas, which held the third spot until 2023, has slipped to fifth place. However, the Danish multinational remains the leading wind turbine provider outside China, with 10.2 GW installed. Siemens Gamesa stands out from eighth place as the top offshore wind turbine supplier.

Who are the key players in the Asia-Pacific wind power market?

The Asia-Pacific Wind Power Market is moderately fragmented. Some of the key players (not in particular order) include Acciona Energia SA, Orsted AS, EDF SA, General Electric Company, and Siemens Gamesa Renewable Energy. Need More Details on Market Players and Competitors?

Vestas SGREGE Vernova Enercon Goldwind Envision Mingyang Nordex Windey0. Sewind Founded: 1945 Location: Aarhus, Denmark Vestas Wind Systems A/S (Vestas) retains the top spot in 2024 as the largest manufacturer of wind turbines across the onshore and offshore wind markets. Vestas is currently the world's largest wind turbine manufacturer, with 181 GW of wind power installed worldwide, including 1...
