Why should you choose a battery cabinet?

Our battery cabinets are sophisticated and offer modular solutions that can withstand even temperatures and earthquakes when it matters. VENTILATION: Our cabinets are specially designed for the use of stationary batteries. One important factor here is ventilation, both for cooling and for the removal of hydrogen (H₂).

Why do you need a batteryguard Battery Cabinet?

A battery fire can devastate your business. With a Batteryguard battery cabinet, you charge and store your batteries with complete peace of mind. You protect your staff, prevent damage, and meet the requirements of your insurer. And in some countries, you may even benefit from financial incentives or grants.

Are batteryguard XL batteries safe?

No matter what type of batteries you use - small or large, many or few - there is always a Batteryguard battery safe that suits your working environment. All XL models are certified by ECB·S according to VDMA 24994, providing proven safety. Want to quickly find out which model is best suited to your location?
