What is a hybrid solar inverter?

Hybrid solar inverters are designed for both grid-tied and off-grid solar power systems. They combine the functions of a grid-tied inverter and a battery charger in a single unit, making them a versatile and flexible solution.

Which solar inverters are best for Australia?

With our diverse selection of inverters by trusted brands such as Sungrow, Growatt, SMA, Fronius, Huawei, GoodWe, Jinko and more, our range of solar inverters is built to last and perform optimally in Australia's weather conditions.

What is a Solis S6 solar hybrid inverter?

Designed for Aussie retailers and installers, the 5kW Solis S6 Solar Hybrid Inverter (S6-EH3P5K-H-AU) delivers smart, high-efficiency energy management for modern homes and businesses. Professionally engineered by Solis, one of the top 3 inverter manufacturers globally, it is designed for use with high-voltage batteries.

Are Victron inverters suitable for Australian conditions?

Victron makes a range of simple products designed for Australian conditions. With true sine wave output, their inverters are also rated for peak currents at up to twice the rated capacity. All units can be integrated into a software solution using Victron's web portal.
